7. To add a MeSH term, click the Medical terms (MeSH) tab

The screenshot shows the search interface with the 'Medical terms (MeSH)' tab selected. A red arrow points to this tab. The search results are displayed in a table with four rows:

	Search	Count
#1	(exercise):ti,ab,kw OR (exercise therapy):ti,ab,kw	66641
#2	(hiv):ti,ab,kw	19132
#3	#1 and #2	217
#4	Manually type a search term here or click on the S (Search Wizard) or MeSH button to compose one	N/A

8. Type in your term and then click on Look up

The screenshot shows the search interface with 'Exercise' entered in the search box. The 'Look up' button is highlighted, and a red arrow points to it. The 'Medical terms (MeSH)' tab is selected.

9. The definition and MeSH tree for the term are displayed. To select the term for searching, click on Add to Search Manager

The screenshot shows the search results page for 'Exercise'. A red arrow points to the 'Add to search manager' button. The page displays the definition of 'Exercise', thesaurus matches, MeSH trees, and search results.

Definition
Exercise - Physical activity which is usually regular and done with the intention of improving or maintaining PHYSICAL FITNESS or HEALTH. Contrast with PHYSICAL EXERTION which is concerned largely with the physiologic and metabolic response to energy expenditure.
